

'Vision Webs did an amazing job creating a website for the City of Seneca that is both attractive and functional. It has been a pleasure working with them. Vision Webs is professional and accessible, enabling us to have a website that stays up-to-date, constantly evolving and improving. Thanks to Vision Webs, the City's website is a resource for citizens, an invitation to visitors, and an asset to the community.'

Tami K. Dandliker

City Administrator

PO Box 40, 531 Main Street
