To Whom It May Concern,

Re: Vision Webs

If you are looking for someone with great ideas and great follow through, you will be happy with the customer service you receive from Dona at Vision Webs! Seneca Downtown Impact worked with Dona Willmeth to create our new website www.senecadowntown.com. Seneca became a Kansas Main Street city this past year and we use this site to communicate details of our current events to our town and region. We are very happy with the creativity and management Dona has provided to us.

The city of Seneca liked what Dona did with our site so much they hired her to redesign their city site www.seneca-kansas.us. Feel free to contact me with any questions, you'll enjoy working with Vision Webs!

Linda Honeyman
